

# Upgrade your digital learning environment

G Suite Enterprise for Education offers advanced, proactive security controls and enhanced, easy-to-use collaboration tools to elevate teaching and learning.

## Ease security concerns.

Protect your data and gain greater control over digital security with advanced tools for proactive risk prevention, detection, and remediation, plus easy data exportation for analysis, insights, and reporting.

## Empower learning.

Broaden your communication capabilities, and enable collaborative teaching and learning from anywhere with video. Strengthen student work with enhanced tools that foster authentic thinking and writing skills.

## Stay flexible and scalable.

Manage and scale with robust tools and gain centralized visibility of your digital environment. Solve problems faster and get the help you need when you need it, from dedicated support specialists available 24x7.

## Google remains committed to investing in education.

G Suite for Education remains free to schools. And Google will continue to partner with educators to develop free tools for all schools, plus premium tools for those that need them.

## The power and familiarity of G Suite for Education, plus premium enhancements

### Data and analytics that are secure by design

#### Enhance security, visibility, and control.

- Optimize data protection with customized recommendations for setting adjustments on the **security health page**
- Streamline cyberthreat monitoring and analysis proactively in the **security center dashboard**
- Target and block phishing, spam, and other breaches quickly with the **investigation tool**
- Protect personal devices and apps with **advanced mobile management**

#### Do more with your data and insights.

- **Export Gmail logs** and usage data for analysis in BigQuery or your preferred tools
- Manage your data with flexible levels of granular control, from global views down to specific **data regions**

### Tools to take teaching and learning to the next level

#### Expand learning possibilities with video.

- Teach in **virtual classrooms** with up to 250 participants using the advanced video meeting capabilities
- **Livestream** events to as many as 100,000 in-domain participants who can tune in with a click of a link
- **Record meetings**, then automatically save and archive them to share replays with your school or community

#### Empower authentic thinking.

- Provide **unlimited originality reports** to save instructors grading time while guiding students to create original work efficiently and incorporate outside sources properly
- Create **peer-to-peer comparisons** (beta) between current student work and anything previously submitted and stored in your private, school-owned repository
- **Protect intellectual property** with your school retaining ownership of scanned student work

“When these features are part of your daily workflow, you’re much more likely to use them, which might not be the case with third-party tools.”

– John Krouskoff, Executive Director,  
IT, Newburgh Enlarged City School District
