

# Adobe Featured Restricted Licensing

Creative Cloud solution  
Per ITCC Contract

# What is Feature Restricted Licensing – Online?

- FRL is an anonymous device license that an admin deploys to a specific, individual device – no logins or cloud storage required
- FRL does not collect student or teacher personally identifiable information (PII), and no user data or projects are stored on Adobe servers as Cloud storage is not included.
- FRL **does** require a connect to the Internet to validate the license upon installation.

# Which Adobe CC apps are supported in FRL?

- FRL does not include all the Creative Cloud apps
  - Adobe Spark Premium for education is not included in FRL Online – it requires login and server storage
- Apps that are included in FRL will not include app features that rely on cloud storage or logins
  - Example – Adobe Premiere Rush

Photoshop

InDesign

After Effects

Audition

InCopy

Media Encoder

Prelude

Acrobat Pro

Illustrator

Premiere Pro

Lightroom Classic

Dreamweaver

Character Animator

Animate (Flash Pro)

Bridge

# Adobe FRL Offerings and Pricing

Product	License	Migration	License Type	Seats	Price Each	Minimum Purchase Price
Creative Cloud Enterprise – All Apps	Feature Restricted License - Online	<i>Shared Device License Migration Offer</i>	K-12 Site	100+	\$24.90	\$2490.00

			K-12 District	2500+	\$4.90	\$12250.00
			K-12 Add-On	50+	\$4.90	\$245.00

**Please note – this is ONLY available currently for existing Adobe Creative Cloud K-12 License Customers and ONLY available for purchase during the “Renewal Window”**

# What is the FRL Technical Transition Process?

- Uninstall Named User / Shared Device Licenses from Devices
- Decide how you handle your existing console
  - Do you want new Adobe Console, without any PII
  - Do you want to keep your existing Console, remove all the users and release the domain.
- Follow the Feature Restricted Licensing Deployment Guide
  - <https://helpx.adobe.com/enterprise/using/fri-online-deployment-guide.html>
- Set up new FRL licenses on each device
- Adobe suggests that if admins have questions about this process, to please contact Adobe Enterprise Support through the Adobe Admin Console
