RE: Review of Regional Summer School Program

DATE: January 21, 2020

**FINAL AUDIT REPORT**

**Please see corrective actions from Ms. Judith A. Hynes, Assistant Director RSIP at the end of this report.**

The Internal Audit Department has conducted multiple audits over the past few years of the Regional Summer School (RSS) for the purpose of reviewing the procedures and practices that are followed in that program to ensure that those practices demonstrate good internal controls.

This audit focused specifically on the RSS's staff orientation and registration payrolls covering the period of June 16, 2019 through June 30, 2019.

**General Background Information:** This payroll period deals only with those programs that have either an orientation or registration during the period of June 16, 2019 through June 30, 2019. Each of the payrolls will follow the standard semi-monthly payrolls; however, the RSS's payrolls lag by one pay period. This methodology is most practical in this instance because it generally affords the RSS program, as well as the Nassau BOCES Payroll Department, additional time to process the payroll.

The July 15, 2019 payroll is a relatively small payroll with the following statistics:

- a. There were 489 employees that were actually paid.
- b. Fifteen of these employees were paid for more than one job code.
- c. The total payroll for CoSer 443 for this period was \$87,734.64.

**Audit Scope:** All timesheets covering the July 15, 2019 payroll for the RSS IPAs were received directly from RSS staff and were used as the basis for the testing. In total, we examined twenty-one district's timesheets out of a total of twenty-eight district's timesheets. The sample tested represented 75% of the timesheets for all school districts that had payroll during our test period.

It is important to note that included in the total payroll for CoSer 443 are Regional Schools and Instructional Programs (RSIP) salaried employees allocated to the RSS program, and those timesheets were not included in our statistics.

**Audit Objectives:** 1. To ensure that all payments made to the employees follow the terms and agreements for all IPAs tested.

2. To identify any potential issues that could arise based on the audit procedures followed.

**Audit Procedures Followed:** 1. All RSS Fiscal 2020 matrixes were reviewed for the following criteria:

- a. Authorization for all relevant data included on the matrix, evidenced by a signature and date of a district administrator. This can be the district superintendent, assistant superintendent, board president or other authorized administrator who can legally bind the district to the terms included on the matrix.
- b. The matrix is included in the contract between Nassau BOCES and the district, labeled as Appendix A.
- c. Attachment A was prepared directly from the matrixes reviewed to illustrate each of the programs included in the Fiscal 2020 RSS program. This schedule is required to provide a clear understanding of the number of programs in each district.

2. All timesheets for the July 15, 2019 payroll were reviewed for each of the IPA locations that were paid during that period. As noted above, the dates of actual work cover the period of June 16, 2019 through June 30, 2019.

Attachment B is the final Registration and Orientation Schedule that was supplied to the Internal Audit Department by RSS staff dated November 19, 2019. We received three different versions of the schedule, which delayed the completion of the audit.

This information was used to verify if the hours worked during June 16, 2019 through June 30, 2019 corresponded to the hours listed on the employee's timesheet, as well as agreeing with the day and hours that were included on the Registration and Orientation Schedule.

3. The hours listed on the timesheet were then compared to the exact hours the employee was paid for on July 15, 2019.
4. Attachment C was prepared to summarize the findings of the twenty-one district programs that were tested.

**Audit Finding #1:** Five out of the ten employees paid in Plainview-Old Bethpage IPA928 were paid more than the six-hour timeframe noted on Attachment B. This finding indicates that there is no specific oversight on the hours paid and no indication on the timesheet as to why those five employees exceeded the hours indicated on Attachment B.

**Audit Recommendation #1:** Since both the local program administrator, as well as the Nassau BOCES central office administrator sign off on the timesheets, additional hours worked over and above the authorized time should include justification for exceeding the specified timeframes.

**Audit Finding #2:** When we compared the timesheets for Roosevelt High School IPA961 to the actual payroll, we noted that two employees, #37787 and #17896, were paid out of IPA961, even though they were not listed on the timesheets for IPA961.

We verified that employee #37787 was coded in PeopleSoft HR to IPA961, so any hours that were worked would automatically be charged to IPA961, regardless of which IPA they worked.

We verified that employee #17896 was coded in PeopleSoft HR to IPA961 as of July 12, 2019; however, he was coded to IPA970A with an effective date of 6/17/2019 before the change.

When we examined the timesheets for Roosevelt Bridge at the High School IPA970A, we noted that both employees, #37787 and #17896, had used those timesheets to indicate the hour worked. This verified that the payment that they received was valid; however, as noted above, the incorrect IPA was charged.

The two employees that were included on the IPA970A timesheets, but were paid out of IPA961, worked on June 18, 2019 (#37787) and June 19, 2019 (#17896). Neither of those dates were orientation dates for IPA961.

**Audit Recommendation #2:** The purpose of Attachment B is to provide an outline on what additional days and times that an employee can work in a program because those times have been authorized. Without an official calendar and timeframes, it is difficult to know if payment should be made.

**Audit Finding #3:** Uniondale High School IPA978 had one employee who was paid for three hours on June 17, 2019, and there was no orientation or registration listed on Attachment B for that date and, as such, the hours worked could not be verified.

**Audit Recommendation #3:** The purpose of Attachment B is to provide an outline on what additional days and times that an employee is expected and authorized to work. For IPA978, this could not be verified. An explanation on the timesheet could have provided some information; however, nothing was indicated.

**Audit Finding #4:** Uniondale Elementary School IPA976 and Uniondale Special Education at Walnut Street IPA976A had sixty-five employees, all listed on the timesheets labeled IPA976 and all worked on June 27, 2019 within the time period specified on Attachment B. We were able to verify which IPA they were paid from based on the actual payroll, even though it was a little confusing based on the IPA location listed on the timesheets.

There were nine employees also listed on timesheets labeled IPA976 who worked as REGIS (registration) on June 18, 2019 and June 20, 2019 from 5:00 p.m. to 8:00 p.m. The hours worked were listed correctly on Attachment B; however, June 18, 2019 and June 19, 2019 were listed on Attachment B, rather than the actual day that registration was listed on the timesheets.

**Audit Recommendation #4:** Timesheets should be correctly labeled and the dates and times for orientation and registration should also correspond to the actual dates worked.

**Audit Finding #5:** Uniondale Lawrence Road Middle School IPA977 had 26 employees who worked on June 17, 2019 for three hours each; however, that day was not listed on Attachment B as a workday.

**Audit Recommendation #5:** The orientation and registration information should be correctly updated on the schedule in order to ensure days that are listed on the timesheets are accurate and have been approved prior to the employee working.

**Audit Finding #6:** Valley Stream Central High School District IPA922 had nine employees out of eleven paid who worked on June 27, 2019 and June 28, 2019. Attachment B indicated that June 27, 2019 was the date for registration between the hours of 8:00 a.m. and 2:00 p.m.

In addition, five of the eleven employees who worked both days worked past the hours of 8:00 a.m. and 2:00 p.m.

**Audit Recommendation #6:** The purpose of Attachment B is to provide an outline on what additional days and times that an employee is expected and authorized to work. For IPA922, this could not be verified. An explanation on the timesheet could have provided some information; however, nothing was indicated.

**Audit Finding #7:** Baldwin PreK Program at Plaza Elementary School IPA975 is listed in the payroll file as Baldwin Elementary at the Middle School, which does not correspond to the name of the current program.

**Audit Recommendation #7:** When programs change from one year to the next, that information should be communicated to each of the departments within Nassau BOCES that capture and report on those programs. This communication is vital to maintain proper recordkeeping and eliminate unnecessary confusion.

**Audit Finding #8:** East Rockaway High School IPA898 had one employee who was paid for 6.75 hours on June 27, 2019, and there was no orientation or registration listed on Attachment B for that date and, as such, the hours worked could not be verified.

**Audit Recommendation #8:** The purpose of Attachment B is to provide an outline on what additional days and times that an employee is expected and authorized to work. For IPA898, this could not be verified. An explanation on the timesheet could have provided some information; however, nothing was indicated.

**Audit Finding #9:** When we compared the timesheets for Westbury Summer Reading K-2 Park Avenue School IPA986B to the actual payroll, we noted that two employees, #36494 and #36432, had not been paid out of IPA986B.

We traced and agreed their payment to IPA986C. Both employees were coded to IPA986C and were not recoded to IPA986B until 7/16/2019.

Both the underpayment and the overpayment will impact the total costs associated with both of those programs and will reflect an overbilling to one program and an underbilling to the next program. Since both programs are Westbury programs, the impact will be insignificant.

**Recommendation #9:** None required.

**Audit Finding #10:** When we compared the timesheets for Westbury SPED Program Park Avenue School IPA986C to the actual payroll, we noted that one employee #38046 was not paid for the time that she worked during our test period.

The PeopleSoft job data record was created on 7/12/2019; however, the PAR was dated August 1, 2019. This is not an issue because the employee was paid for their time in a subsequent pay period.

There were also four employees - #35023, #35254, #35048 and #25996 - who signed the IPA986C timesheets; however, all four were paid out of the IPA986D payroll. All the job records reflected IPA986D, even though all four of the employees signed in on the IPA986C timesheets.

Employee #35024 was paid out of IPA986C; however, they signed the IPA987 timesheet.

**Recommendation #10:** Tracing actual payrolls back to the timesheets is a step that is used to verify that the employee is being paid correctly. In this case, there were no payroll errors; however, we recommend that employees should sign in on the timesheets that correspond to current job records.

**Audit Finding #11:** The IPA979 matrix that we received directly from the RSS staff had changes indicated in red to the printed version for both the number of days and the amounts that were being paid for those days.

**Recommendation #11:** Whenever a change is made to the terms and agreements between the district and Nassau BOCES regarding specifics related to their RSS program, a new document should be created and officially signed by the district's representative.

**Audit Finding #12:** The Westbury school district had two different programs with the same IPA numbers as follows:

Westbury High School	IPA986
Westbury Science Program	IPA986
Westbury Middle School Bridge	IPA987
Westbury Middle School Rising 6 <sup>th</sup> Graders	IPA987

**Recommendation #12:** Each program should have its own unique identification number in order to maintain an accurate accounting of the costs specific to each program. This also helps in defining specific parameters for each program.

**Audit Objectives:** 1. To ensure that all payments made to the employees follow the terms and agreements for all IPAs tested. This objective could not be met due to Audit Findings #1, #2, #3, #4, #5, #6, and #8.

2. To identify any potential issues that could arise based on the audit procedures followed. This objective was met based on the recommendations in the report that focus on the need for accurate Orientation and Registration dates and times. Orientation and Registration dates should be established and communicated with each IPA before they occur. This would avoid any potential payment issues that could arise from missing or inaccurate information.

**Regional Schools & Instructional Programs**

**To:** Barbara Golemme, Internal Auditor  
**CC:** Dr. Carla Theodorou, Executive Director RSIP  
**From:** Judith A. Hynes, Assistant Director RSIP  
**Re:** Corrective Actions to Audit of Regional Summer School  
**Date:** January 21, 2020

Having reviewed the audit report and having conducted follow up conversations and emails the Coordinator of the Summer Program and our RSIP Personnel Clerk, the following are my corrective actions:

**Finding #1 Corrective Action:**

Registration for any summer program can run longer than the scheduled time based upon how many students and parents are waiting in line to register. Any additional hours or minutes beyond the estimated time will be noted on the time sheets.

**Finding #2 Corrective Action:**

Any additional days will be noted on Attachment B.

**Finding #3 Corrective Action:**

Any additional hours needed for registration will be noted on Attachment B if known prior to the time allotted; otherwise they will be noted on the time sheets.

**Finding #4 Corrective Action:**

Any additional hours needed for registration will be noted on Attachment B if known prior to the time allotted; otherwise they will be noted on the time sheets.

**Finding #5 Corrective Action:**

Any additional hours needed for registration will be noted on Attachment B if known prior to the time allotted; otherwise they will be noted on the time sheets.

**Finding #6 Corrective Action:**

Registration for any summer program can run longer than the scheduled time based upon how many students and parents are waiting in line to register. Any additional hours or minutes beyond the estimated time will be noted on the time sheets.

**Finding #7 Corrective Action:**

Any additional hours needed for registration will be noted on Attachment B if known prior to the time allotted; otherwise they will be noted on the time sheets.

**Regional Schools & Instructional Programs**

**Finding #8 Corrective Action:**

Any additional hours needed for registration will be noted on Attachment B if known prior to the time allotted; otherwise they will be noted on the time sheets.

**Finding #9 Corrective Action:**

None required.

**Finding #10 Corrective Action:**

As recommended.

**Finding #11 Corrective Action:**

Verifying documentation to changes in the matrix will be attached as needed.

**Finding #12 Corrective Action:**

Additional IPA numbers/locations will be obtained for each program in a district.

**Comments:**

After the review of this report with the Regional Summer School staff, all efforts will be made to eliminate the changes that often occur during Orientation and Registration hours for the summer programs in each district. Any time worked that goes beyond the time previously decided for Registration in particular, will be noted on the time sheet and verified by the program Coordinator and the District Liaison (administrator) assigned to that district.

We thank Ms. Golemme for her time and effort in working through these issues and examining opportunities for improvement in the delivery of our services. The recommendations and corrective actions will make the program even more refined.
