New Personal Account Assignments

Instructional Data Warehouse
Nassau BOCES
December 7, 2015
IDW Personal Account Creation

- **Purpose**: Provide better security and privacy of student and teacher information
- **Pertains only to IDW access NOT Level 0**
- **Key information and prerequisites**:
  - Registrants must have their TEACH ID number (7–9 digits with leading zeros) when they register (your HR department will typically have it if you don’t know it)
  - Your name should match that used on the TEACH ID registration
  - You must provide a valid email address with a district domain
  - You must know your “District Credentials” (i.e. building or _T user and password) to start the procedure
Instructional Data Warehouse

The application allows you to use your existing login to create your own unique login. It also provides a password recovery method for your own unique account.
