Dear Parents and Guardians,

Yesterday, October 4, a staff member in a Rosemary Kennedy Center parking lot saw an arrow land. Acting quickly, she notified security who immediately cleared the parking lot and closed the building entrances near the incident. Local law enforcement responded and conducted an investigation. Prior to dismissal, the principals received notification that the police had made an arrest and that it was OK to resume using the entrances and parking lots.

No students were present at the time. The health and safety of our students, staff and community are Nassau BOCES' top priorities. This is still a police matter, and the administration is cooperating with law enforcement as their investigation continues.

Sincerely,

Matthew Zegers

Principal
