Re: BLOOD DONATION

Blood Donation:

This notification is being provided to inform employees that effective May 7, 2008 the Department of Labor issued guidelines regarding the donation of blood as it relates to employee leave.

Guidelines:

The guidelines provide that the employees who work 20 hours per week or more are entitled to at least one three hour blood donation leave per calendar year to donate blood at a location of their choice. Districts/BOCES may provide either an on-site or an off-premise location, both during the employee's regular working hours. The guidelines state that leave taken by employees at a company-designated donation alternative (such as an employer-sponsored blood drive at the workplace) *must be paid leave* that is provided without requiring the employee to use accumulated vacation, personal, sick, or other leave time. Leave granted to employees for off-premise blood donation is *not* required to be paid leave. Employees have the option to use sick/personal or unpaid leave time to donate blood at an off-premise blood donation facility.

Required Documentation:

All full and part-time Nassau BOCES employees are required to submit either a completed "District Sponsored Blood Donation Leave Request" or the "Off-Premise Blood Donation Request" form to Human Resources (attached). The Blood Donation Facility must complete the Verification section to verify that the employee donated blood. This form also documents the employee's absence. All Request forms must be submitted at least 10 days prior to the appointment. Employees will be notified by Human Resources whether the leave is approved.

As with any other absence, the employee should follow routine attendance reporting procedures, such as calling the Substitute Employee Management System (if applicable) and alerting your supervisor. Employees should write <u>BD</u> on their timesheet for reconciliation with the Blood Donation Leave Request form for district (BOCES) sponsored blood drives. No additional leave request forms will be required. Absences exceeding the maximum number of hours allotted will be charged to the employee's leave accruals. Additional forms can be obtained on the Nassau BOCES website under the employee section.

Contact:

Please contact Lisa Holihan in the Human Resources Department at 516-396-2269 if you have any questions related to Blood Donation Leave Requests.
